

Product Data Sheet

Hydraulic crimping tool - HH1070H

Description

Compact hydraulic operated crimping tool suitable for crimping the TQ range of copper tube terminals from 10 - 70mm²

Crimping Profile 

Features:

- The head rotates 360° allowing easy accessibility and crimping in confined working areas.
- The compact and light-weight design of this hydraulic crimp tool also makes it suitable for easy operation.
- The interchangeable dies snap fit into the crimp tool head and crimping is achieved through repeated pump action of the handle.
- Supplied in a moulded case.

Technical

Crimping range	10 - 70 mm ²
